

This architectural floor plan depicts the Temple of Isis at Philae, a long rectangular structure with a central aisle and side aisles. The plan is oriented horizontally, with the entrance on the left. The central hall is flanked by side aisles, and the entire structure is enclosed by a colonnade. The drawing includes a detailed section on the right side, showing the internal structure of the temple, including the staircase and the central hall. The plan is labeled with dimensions and various architectural details, such as the central aisle, side aisles, and the entrance. The drawing is a black and white line drawing with dimensions and labels.

This architectural drawing illustrates the facade of a building, characterized by a regular grid of windows. The drawing includes several labels and detailed views:

- Panneaux**: Points to the vertical panels between the windows.
- LITEAU**: Points to the horizontal panels between the windows.
- CHÉVREONS**: Points to the horizontal panels between the windows.
- Arrière**: Points to the rear wall of the building.

The drawing also features a detailed view of a corner joint and a section of the roof structure, showing the arrangement of the panels and the underlying framework.
